Section Instructions						
Section Inst	uctions					
	Section Description: The purpose of the Facility Profile section is to understand the scope of facility operations and determine what questions in other sections of the Tool are applicable to this specific facility. Topics within this section include: • Step Selection • Basic Information • Building Structures • Worker Demographics • Nationalities • Languages • Operating Licenses • Certifications • Production / Operation Information • Subcontractors for Production / Operation IMPORTANT NOTES: 1) First make your "Step Selection" below. 2) Then complete all questions in the Facility Profile. Certain ans wers within your Facility Profile (especially within the "Building Structures" and "Worker Demographics" section) will dictate which questions you will see within the Tool. If a question with free text ans wer (Response Here) is not applicable to you, type "Not Applicable". If a question does not have the answer option that best fits your facility circumstances, please choose the most appropriate or positive answer and use the question under Sub-Section Facility Comments to provide your feedback. You will have to complete one Facility Profile question after you have finished your entire self/joint-assessment to ensure an accurate answer: FP-BAS-26 Date of self/or joint-assessment submission (YY YY-MM-DD): Remember that the verification has to occur within two months after this submission date. If scheduling does not allow you to complete the verification in time, then ensure you update this self/joint-assessment prior to completing it on the Accredited Host platform.

FP-BUI-1	Total number of buildings on-site:	7				
Facility Response: 5 Werification Selection: Undated during Verification						
	Verification Selection: Updated during Verification Corrected Response: 7					

Verification Data: The verified factory consists of seven main buildings housing the administrative offices and all the production workshops and warehouses, where it occupies a land area of 35,000 sq. meters. Building #1 is a one-story building of 9,078 sq. meters and is 5 years old; 1F: cutting workshop, sewing workshop, ironing work shop, inspecting workshop, packing workshop, finished products warehouse, raw materials area, accessories warehouse, production offices, sample development roo m, maintenance room, clinic room, and office for management and staff. Mezzanine: meeting room and office for management and staff. Building #2 is a one-story building of 8,190 sq. meters and is 5 years old; Part of the 1F: sewing workshop, ironing workshop, inspecting workshop, packing workshop, and production offices. Balance of the 1F: rented to Factory 2 (Quadrille Company) as manufacturing space. Building #3 is a one-story building of 820 sq. meters and is 5 years old; 1F: rented to Factory 2 (Quadrille Company) as manufacturing space. Building #4 is a one-story building of 1,311 sq. meters and is 5 years old; 1F: dining and kitchen (shared with Factory #2). Building #5 is a one-story building of 627 sq. meters and 5 years old; 1F: boiler room, air compressor room, and chemical warehouse. Buildings #6 & 7 are two one-story buildings of 556 sq. meters and are 5 years old; 1F: dormitory rooms for the management. Supporting buildings: wastewater treatment system, parking areas, toilets, guard house, waste warehouse, and fire pump area. The facility did not provide dormitories for the workers but only for the management. In addition, the facility shared 2 buildings (Buildings #2 and #3) with Factory #2.

of the 1F: rented to Factory 2 (Quadrille Company) as manufacturing space. Building #3 is a one-story building of 820 sq. meters and is 5 years old; 1F: rented to Factory 2 (Quadrille Company) as manufacturing space. Building #4 is a one-story building of 1,311 sq. meters and is 5 years old; 1F: dining and kitchen (shared with Factory #2). B uilding #5 is a one-story building of 627 sq. meters and 5 years old; 1F: boiler room, air compressor room, and chemical warehouse. Buildings #6 & 7 are two one-story buildings of 556 sq. meters and are 5 years old; 1F: dormitory rooms for the management. Supporting buildings: wastewater treatment system, parking areas, toilets, g uard house, waste warehouse, and fire pump area. The facility did not provide dormitories for the workers but only for the management. In addition, the facility shared 2 buildings (Buildings #2 and #3) with Factory #2.

Verification Selection: Verification not required			

Corrected Response: Validation Method: SLCP Onsite Verification RECRUITMENT & HIRING Number Question **Final Verified Response Section Instructions Section Instructions** Section Description: The purpose of the Recruitment and Hiring section is to understand the facilit y's social and labor practices in the initial stages of employment. The "recruitment" process is designe d to select the most appropriate candidates for employment. The "hiring" process is how new worker s are brought into the organization. Social and Labor topics within this section include: • Child Labor • Apprenticeship / Trainee / Internship Programs • Forced Labor • Recruitment Practices • Discrimina tion • Employment Practices • Homeworkers • Facility Comments Child Labor **Sub-Section Instructions** Overall International Labor Standards Compliance Guidance: Child labor is work that deprives childre n of their childhood, their potential and their dignity, and that is harmful to physical and mental dev elopment. It refers to work that is mentally, physically, socially or morally dangerous and harmful to c hildren and interferes with their schooling by depriving them of the opportunity to attend school, b y obliging them to leave school prematurely, or by requiring them to combine school attendance wi th excessively long and heavy work. In its most extreme forms, children are involved in illegal activit ies, or in work that exposes them to physical, sexual or psychological abuse. However, not all work d one by children is classified as child labor that should be eliminated. Work that does not affect childr en's health and personal development or interfere with their schooling can be constructive. This incl udes activities such as helping parents around the home, helping in a family business or earning pock et money outside school time. Whether or not work being carried out by children constitutes child I abor depends on the child's age, the type and hours of work performed, and the impact of the work on the child's health, development and access to education. In addition to determining whether the re are child laborers working at the facility premises, the possibility of workers taking work home sho uld be monitored. If work is performed outside the facility premises, determine whether underage fa mily members are doing it. Applicable legal standards include: ILO Core Conventions, C138 Minimum Age Convention, 1973 and C182 Worst Forms of Child Labour Convention, 1999, which provide the ba seline standards for child labor; other conventions in force in the country; applicable legislation; Coll ective Bargaining Agreements and provisions in employment contracts that exceed legal requireme nts Other relevant ILO documents: R146 Minimum Age Recommendation, 1973; R190 Worst Forms o f Child Labour Recommendation, 1999 Age Documentation RH-CHI-1 Does the facility verify minimum age requirements prior to hiring workers? Forced Labor					
Sub-Section Instructions					

Overall International Labor Standard Compliance Guidance: Forced labor is work exacted under the menace of penalty and for which the person has not offered him/herself voluntarily. Forced labor vio lates the basic human right to work in freedom and freely choose one's work. Two elements must b e present in addition to labor, which refers to all types of work, service and employment, whether fo rmal or informal, regardless of industry or sector. Labour does not include compulsory education or c ompulsory vocational training, however, trainings required in connection with employment would b e considered labor. 1) The first element is that the worker must be subject to threat of penalty. Look for coercion on the part of the employer (e.g., action taken to control, manipulate, deceive and/or o verride a person's will). However, bear in mind that for vulnerable workers, a relatively small amount of coercion may lead to forced labor. For example, workers who are migrants, pregnant or from ethni c minorities often are vulnerable and therefore may be more susceptible to forced labor. Some possi ble examples of penalties that could be imposed or threatened include: • Beatings, torture or sexual assault; • Restrictions on freedom of movement, e.g., prohibiting workers from leaving the workplace e or living accommodation; • Financial penalties, e.g., burdening workers with unmanageable debt o r delaying wage payments to keep workers on the job; • Reporting workers to the authorities (polic e, immigration, etc.); • Deportation, for example in the case of migrants in irregular situations; • De nying workers access to their personal documents; • Termination or exclusion from future employm ent; • Exclusion from community and social life; • Refusal of food, shelter or other necessities; • Tra nsfer to worse working conditions, and • Removal of rights or privileges. Coercion is an indicator of forced labor regardless of whether it occurs during regular hours or overtime. Subjecting workers to the coercive tactics listed below under the Coercion compliance point would be an indicator of forc ed labor, even if the tactics are used solely to force workers to work overtime. In a limited set of circ umstances, forced labor also can arise when workers are forced to work overtime through economic coercion. The Forced Labour and Overtime compliance point addresses those situations. 2) The seco nd element of forced labor is that the worker has not accepted the work voluntarily. Workers must fr eely consent to accept the work and they must be free to leave the job and the workplace at all tim es. Deciding whether work is performed voluntarily often involves looking at • the vulnerability of t he worker and • external and indirect pressures that make it difficult for workers to choose not to w ork, for example, non-payment of wages, or denying workers access to their identity documents. A pplicable legal standards include: ILO Core Conventions, C29 Forced Labour Convention, 1930 (and Pr otocol), and C105 Abolition of Forced Labour Convention, 1957, which provide the baseline standards for forced labor; other conventions in force in the country; applicable legislation; Collective Bargaini ng Agreements and provisions in employment contracts that exceed legal requirements Other rele vant ILO documents: C181 Private Employment Agencies Convention, 1997 and C1 Hours of Work (In dustry) Convention, 1919

Discriminati	on	

Sub-Section I	nstructions	
	Overall International Labor Standard Compliance Guidance: Discrimination includes any distinction b ased on race, color, sex, religion, political opinion, national extraction or social origin, which results in unequal treatment. Other grounds of discrimination may be included in national law, such as disabilit y, HIV/AIDS status, age and sexual orientation. Discrimination may be direct or indirect and does not have to be intentional. Indirect discrimination refers to apparently neutral practices, which in fact res ult in unequal treatment of people with certain characteristics. Distinctions are permissible when th ey are necessary because of the inherent requirements of the particular job, although this exception is rare. Also, measures to protect certain categories of workers are acceptable when they are provide d for under international labor Conventions and Recommendations, such as maternity protection. Di stinctions also may be permissible under national laws designed to help groups who need special pro tection, for example, laws that offer preferential treatment to women in hiring in order to remedy the effects of past discrimination. Applicable legal standards include: ILO Core Conventions, C100 Equal Remuneration Convention, 1951 and C111 Discrimination (Employment and Occupation) Convention, 1958, which provide the baseline standards for discrimination; other conventions in force in the country; applicable legislation; Collective Bargaining Agreements and provisions in employment cont racts that exceed legal requirements. Other relevant ILO documents: R90 Equal Remuneration Recommendation, 1951; R111 Discrimination (Employment and Occupation) Recommendation, 1958; C156 Workers with Family Responsibilities Convention, 1981; R165 Workers with Family Responsibilities Recommendation, 1981	
Recruitment		
RH-DIS-1	During the recruitment process, do materials such as job description or job application forms ever ref erence an applicant's race, skin color, sex (gender), religion, political opinion, national extraction, soci al origin, disability, HIV/AIDS status, sexual orientation, pregnancy/maternity status, marital status, fa mily responsibilities, age (other than the legal minimum age) or nationality/foreign migrant worker s tatus?	No
Facility Respo	onse: No

oduction workers and/or sub-contracted workers?

Forced Labor

Sub-Section Instructions

Overall International Labor Standard Compliance Guidance: Forced labor is work exacted under the menace of penalty and for which the person has not offered him/herself voluntarily. Forced labor vio lates the basic human right to work in freedom and freely choose one's work. Two elements must b e present in addition to labor, which refers to all types of work, service and employment, whether fo rmal or informal, regardless of industry or sector. Labour does not include compulsory education or c ompulsory vocational training, however, trainings required in connection with employment would b e considered labor. 1) The first element is that the worker must be subject to threat of penalty. Look for coercion on the part of the employer (e.g., action taken to control, manipulate, deceive and/or o verride a person's will). However, bear in mind that for vulnerable workers, a relatively small amount of coercion may lead to forced labor. For example, workers who are migrants, pregnant or from ethni c minorities often are vulnerable and therefore may be more susceptible to forced labor. Some possi ble examples of penalties that could be imposed or threatened include: • Beatings, torture or sexual assault; • Restrictions on freedom of movement, e.g., prohibiting workers from leaving the workplac e or living accommodation; • Financial penalties, e.g., burdening workers with unmanageable debt o r delaying wage payments to keep workers on the job; • Reporting workers to the authorities (polic e, immigration, etc.); • Deportation, for example in the case of migrants in irregular situations; • De nying workers access to their personal documents; • Termination or exclusion from future employm ent; • Exclusion from community and social life; • Refusal of food, shelter or other necessities; • Tra nsfer to worse working conditions, and • Removal of rights or privileges. Coercion is an indicator of forced labor regardless of whether it occurs during regular hours or overtime. Subjecting workers to the coercive tactics listed below under the Coercion compliance point would be an indicator of forc ed labor, even if the tactics were used solely to force workers to work overtime. In a limited set of ci rcumstances, forced labor also can arise when workers are forced to work overtime through econom ic coercion. The Forced Labour and Overtime compliance point addresses those situations. 2) The se cond element of forced labor is that the worker has not accepted the work voluntarily. Workers mus t freely consent to accept the work and they must be free to leave the job and the workplace at all t imes. Deciding whether work is performed voluntarily often involves looking at • the vulnerability o f the worker and • external and indirect pressures that make it difficult for workers to choose not to work, for example, non-payment of wages, or denying workers access to their identity documents. Applicable legal standards include the ILO Core Conventions, C29 Forced Labour Convention, 1930 (a nd Protocol), and C105 Abolition of Forced Labour Convention, 1957, which provide the baseline stan dards for forced labor; other conventions in force in the country; applicable legislation; Collective Bar gaining Agreements and provisions in employment contracts that exceed legal requirements Othe r relevant ILO documents: C181 Private Employment Agencies Convention, 1997 and C1 Hours of Wor k (Industry) Convention, 1919

Forced Overtime

WH-FOR-1 Are workers forced to work overtime under threat of penalty?

No

Facility Response: No

Verification Selection: Accurate

Verification Data: Through the document review and worker interviews, we ascertained that all employees were working at the facility voluntarily, no forced labor and no threat of any penalty or sanction. In addition, workers are able to refuse overtime for any reason, the overtime sheet would be given to workers every day, and if worker did not want to work overtime, he or she did not need to sign the overtime sheet and could leave the factory after the end of the normal working day.

Validation Method: SLCP Onsite Verification

Wages and E			
Sub-Section In			
Sub-Section in			
	Wages and Benefits refer to the compensation a worker receives - or should be receiving - as a result of their work in the facility. Wages refer specifically to the monetary (cash) wages received. And be nefits cover any other form of compensation the worker receives other than monetary (cash) wages. Minimum wages may be set by law or regulation, by wage boards, councils, courts or tribunals, or by collective agreement. Minimum wage rates may be different across groups of worker, sectors of eco nomic activity, or by geographical location. The sub-section below includes questions on items such as minimum wage, overtime wage, wage payment, deductions, in-kind benefits and various forms of worker leave.

From freedom of movement to harassment, this section seeks to understand if workers are treated in a fair and responsible manner, in line with applicable le gal standards. Social and Labor topics within this section include: • Forced Labor • Harassment and A buse • Discrimination • Discipline • Facility Comments Forced Labor **Sub-Section Instructions** Overall International Labor Standard Compliance Guidance: Forced labor is work exacted under the menace of penalty and for which the person has not offered him/herself voluntarily. Forced labor vio lates the basic human right to work in freedom and freely choose one's work. Two elements must b e present in addition to labor, which refers to all types of work, service and employment, whether fo rmal or informal, regardless of industry or sector. Labour does not include compulsory education or c ompulsory vocational training, however, trainings required in connection with employment would b e considered labor. 1) The first element is that the worker must be subject to threat of penalty. Look for coercion on the part of the employer (e.g., action taken to control, manipulate, deceive and/or o verride a person's will). However, bear in mind that for vulnerable workers, a relatively small amount of coercion may lead to forced labor. For example, workers who are migrants, pregnant or from ethni c minorities often are vulnerable and therefore may be more susceptible to forced labor. Some possi ble examples of penalties that could be imposed or threatened include: • Beatings, torture or sexual assault; • Restrictions on freedom of movement, e.g., prohibiting workers from leaving the workplac e or living accommodation; • Financial penalties, e.g., burdening workers with unmanageable debt o r delaying wage payments to keep workers on the job; • Reporting workers to the authorities (polic e, immigration, etc.); • Deportation, for example in the case of migrants in irregular situations; • De nying workers access to their personal documents; • Termination or exclusion from future employm ent; • Exclusion from community and social life; • Refusal of food, shelter or other necessities; • Tra nsfer to worse working conditions, and • Removal of rights or privileges. Coercion is an indicator of forced labor regardless of whether it occurs during regular hours or overtime. Subjecting workers to the coercive tactics listed below under the Coercion compliance point would be an indicator of forc ed labor, even if the tactics were used solely to force workers to work overtime. In a limited set of ci rcumstances, forced labor also can arise when workers are forced to work overtime through econom ic coercion. The Forced Labour and Overtime compliance point addresses those situations. 2) The se cond element of forced labor is that the worker has not accepted the work voluntarily. Workers mus t freely consent to accept the work and they must be free to leave the job and the workplace at all t imes. Deciding whether work is performed voluntarily often involves looking at • the vulnerability o f the worker and • external and indirect pressures that make it difficult for workers to choose not to work, for example, non-payment of wages, or denying workers access to their identity documents. Applicable legal standards include the ILO Core Conventions, C29 Forced Labour Convention, 1930 (a nd Protocol), and C105 Abolition of Forced Labour Convention, 1957, which provide the baseline stan dards for forced labor; other conventions in force in the country; applicable legislation; Collective Bar gaining Agreements and provisions in employment contracts that exceed legal requirements Othe r relevant ILO documents: C181 Private Employment Agencies Convention, 1997 and C1 Hours of Wor k (Industry) Convention, 1919 Coercive Tactics WT-FOR-1 No Does the employer use any other coercive tactics to force workers to work? Facility Response: No

Discrimination	on		
Sub-Section In	structions		
Cannol Haraco	Overall International Labor Standard Compliance Guidance: Discrimination includes any distinction b ased on race, color, sex, religion, political opinion, national extraction or social origin, which results in unequal treatment. Other grounds of discrimination may be included in national law, such as disability, HIV/AIDS status, age and sexual orientation. Discrimination may be direct or indirect and does not have to be intentional. Indirect discrimination refers to apparently neutral practices, which in fact result in unequal treatment of people with certain characteristics. Distinctions are permissible when they are necessary because of the inherent requirements of the particular job, although this exception is rare. Also, measures to protect certain categories of workers are acceptable when they are provided for under international labor Conventions and Recommendations, such as maternity protection. Distinctions also may be permissible under national laws designed to help groups who need special protection, for example, laws that offer preferential treatment to women in hiring in order to remedy the effects of past discrimination. Applicable legal standards include the ILO Core Conventions, C100 Equal Remuneration Convention, 1951 and C111 Discrimination (Employment and Occupation) Convention, 1958, which provide the baseline standards for discrimination; other conventions in force in the country; applicable legislation; Collective Bargaining Agreements and provisions in employment contracts that exceed legal requirements. Other relevant ILO documents: R90 Equal Remuneration Recommendation, 1951; R111 Discrimination (Employment and Occupation) Recommendation, 1958; C1 56 Workers with Family Responsibilities Convention, 1981; R165 Workers with Family Responsibilities Recommendation, 1981

WORKER INVOLVEMENT		
Number	Question	Final Verified Response
Section Inst	ructions	
Section Instru	ctions	
	Section Description: The purpose of the Worker Involvement section is to understand how the facili	
	ty involves workers in the improvement process within the facility. From participation in Freedom o f Association to Grievance systems, this section seeks to understand the facility's mechanisms in place to facilitate dialogue and action between management and workers. Social and Labor topics within this section include: • Freedom of Association and Collective Bargaining • Worker Representative s • Bipartite committee(s) • Grievance Systems • Worker Feedback • Facility Comments	
FOA & CB	· · · · · · · · · · · · · · · · · · ·	
Sub-Section Ir	nstructions	

Overall International Labor Standard Compliance Guidance: Freedom of association means the right of workers to join together to create organizations (unions) that represent them. It also applies to e mployer organizations. Collective bargaining is the process of negotiation between unions and employers, usually on working conditions and terms of employment. Both are fundamental rights, and the y are linked together. Without freedom of association, collective bargaining cannot work because the views of the workers cannot be properly represented. Workers themselves must be free to choose how they are to be represented, and employers must not interfere in this process. Applicable legal st andards include the ILO Core Conventions, C87 Freedom of Association and Protection of the Right to Organize Convention, 1948; C98 Right to Organize and Collective Bargaining Convention 1949, which provide the baseline standards for freedom of association and collective bargaining; other conventions in force in the country; applicable legislation; Collective Bargaining Agreements and provision in employment contracts that exceed legal requirements. Other relevant ILO documents: C135 Workers' Representatives Convention, 1971; C154 Collective Bargaining Recommendation, 1981; R143 Workers' Representatives Recommendation, 1971; R163 Collective Bargaining Recommendation, 1981

	s Representatives Recommendation, 1971; R163 Collective Bargaining Recommendation, 1981

Workplace (Cooperation	
Sub-Section I	nstructions	
	Beyond the consultations, dialogue and collective bargaining engaged in between trade unions and employers, other measures may be put in place to promote consultation and co-operation between employers and workers. For example, workers may elect (non-union) representatives to engage in di alogue with the employer, and/or facilities may establish bipartite committees, which include both workers' representatives (union or non-union) and employer representatives. Some jurisdictions lega lly require these types of measures. The questions in this section look at different types of measures to promote workplace cooperation.

Grievance Sy	ystems		
Sub-Section Ir	nstructions		
	Grievance systems provide channels for workers to express their concerns, comments, recommenda		
	tions, reports or complaints concerning the workplace, and seek redress of their grievances through a complaint management system. These systems should be confidential, unbiased, quick, and non-re taliatory. Grievance systems aim to address complaints quickly and systematically, and to build mutu al trust and confidence.

Section Description: The purpose of this section is to understand the facility's social and labor practic es with respect to Health and Safety in the facility's operations. Facilities include those involved in production of goods, and also those involved in operations related to the product, e.g. distribution. The term "production" should not be seen as limiting to production of goods only, but rather general operations of the facility. Social and Labor topics within this section include: • General Work Environment • Building Safety • Risk Assessment • HS Policy • HS Committee • HS Worker Engagement • Emergency Preparedness • Flammable/Combustible Materials • Chemicals/Hazardous Substances • Worker Protection • Materials Handling and Storage • Electrical Safety • First Aid/Medical • Contractor Safety • Dormitories • Canteens • Childcare • Children • Facilities • Facility Comments

Health & Safety

Sub-Section Instructions

Overall International Labor Standard Compliance Guidance: Improvements in occupational safety and health enhance productivity by reducing the number of interruptions in the manufacturing process, by reducing absences, by decreasing the number of accidents and by improving work efficiency. Safety is preventative. The cooperation of workers and employers is essential. While the government has obligations outlined in the ILO Conventions, Protocols, and Recommendations, employers and workers also have responsibilities and rights to ensure occupational safety and health. ILO Conventions and Recommendation on Occupational Health: https://www.ilo.org/global/topics/safety-and-health-at-work/areasofwork/occupational-health/WCMS_108547/lang--en/index.htm ILO Codes of Practice and Guides on Occupational Health: https://www.ilo.org/global/topics/safety-and-health-at-work/areasofwork/occupational-health/WCMS_117570/lang--en/index.htm

Other Legal Requirements

HS-HEA-1

Are facility practices out of compliance with any legal requirements not covered elsewhere regarding Health & Safety?

Facility Response: No

Verification Selection: No longer applicable due to verification

Corrected Response:

Validation Method: SLCP Onsite Verification Is the facility in non-compliance with any legal requirements for Health & Safety pertaining to non-p HS-HEA-2 roduction workers and/or sub-contracted workers? Facility Response: No Verification Selection: Accurate Verification Data: During the verification, we noted that the facility was not in non-compliance with any legal requirements for Health & Safety pertaining to non-pro duction workers and/or sub-contracted workers. Validation Method: SLCP Onsite Verification General Work Environment **Temperature and Ventilation** HS-GEN-1 Does the facility have any inhalation (airborne) exposure hazards (particulates/ dust/ fibers/ fumes)? Yes Facility Response: Yes Verification Selection: Accurate Verification Data: From the site tour, documentary review, and employee interview, we verified that the facility has dust and fumes exposure hazards if inhalation. In addition, the facility has conducted indoor working environment inspecting including dust and fume. All indicators are in line with the limits of environmental law. Validation Method: SLCP Onsite Verification HS-GEN-1.1 Dust If yes, please describe what inhalation (airborne) exposure hazards are present: Facility Response: Dust Verification Selection: Accurate Verification Data: From the site tour, documentary review and employee interview, we verified that the facility has dust and fumes exposure hazards if inhalation. In a ddition, the facility has conducted indoor working environment inspecting including dust and fume. All indicators are in line with the limits of environmental law. Validation Method: SLCP Onsite Verification HS-GFN-2 Yes Are temperature and ventilation systems maintained in line with legal requirements? Facility Response: Yes Verification Selection: Accurate Verification Data: From the site tour, document review and employee interview, we verified that the temperature and ventilation systems are maintained adequatel y in line with legal requirements. Validation Method: SLCP Onsite Verification HS-GEN-3 Are facility temperature and ventilation in line with applicable legal requirements? Yes Facility Response: Yes Verification Selection: Accurate Verification Data: From the site tour, document review, and employee interview, we verified that the temperature and ventilation systems are maintained in line wit Validation Method: SLCP Onsite Verification **Air Quality** HS-GFN-4 Yes Does the facility monitor indoor air quality? Facility Response: Yes Verification Selection: Accurate Verification Data: From the site tour and document review, we verified that the facility well monitors indoor air quality in the workplaces. The recent indoor air quality test was conducted on December 2, 2022. Validation Method: SLCP Onsite Verification Lighting HS-GEN-5 Yes Is facility lighting in line with legal requirements? Facility Response: Yes Verification Selection: Accurate Verification Data: From the site tour and document review, we verified that the facility well monitors lightning in the workplaces. The recent lightning test was cond ucted on December 2, 2022. The lighting level in all production areas were in line with legal requirements. Validation Method: SLCP Onsite Verification Noise Exposure Levels HS-GEN-6 Yes Is noise exposure level testing performed at the facility? Facility Response: Yes Verification Selection: Accurate Verification Data: From the site tour and document review, we verified that the facility well monitors noise exposure level in the workplaces including noise exposure level in all production area and supporting areas yearly by authorized agency. The recent noise level test was conducted on December 2, 2022. The maximum noise ex posure level was under 85dB.

Validation Method: SLCP Onsite Verification

Section Instructions			
Section Instructions			
	Section Description: The purpose of the Termination section is to understand the facility's social and labor practices in the final stages of employment. Termination is the voluntary or involuntary ending of the employment relationship. Termination is typically voluntary in cases of resignation or retireme nt and involuntary in cases of dismissal or layoffs. Social and Labor topics within this section include: • Forced Labor • Employment Practices • Discrimination • Facility Comments		
Forced Labor			
Sub-Section I	Sub-Section Instructions		

Overall International Labor Standard Compliance Guidance: Forced labor is work exacted under the menace of penalty and for which the person has not offered him/herself voluntarily. Forced labor vio lates the basic human right to work in freedom and freely choose one's work. Two elements must b e present in addition to labor, which refers to all types of work, service and employment, whether fo rmal or informal, regardless of industry or sector. Labour does not include compulsory education or c ompulsory vocational training, however, trainings required in connection with employment would b e considered labor. 1) The first element is that the worker must be subject to threat of penalty. Look for coercion on the part of the employer (e.g., action taken to control, manipulate, deceive and/or o verride a person's will). However, bear in mind that for vulnerable workers, a relatively small amount of coercion may lead to forced labor. For example, workers who are migrants, pregnant or from ethni c minorities often are vulnerable and therefore may be more susceptible to forced labor. Some possi ble examples of penalties that could be imposed or threatened include: • Beatings, torture or sexual assault; • Restrictions on freedom of movement, e.g., prohibiting workers from leaving the workplac e or living accommodation; • Financial penalties, e.g., burdening workers with unmanageable debt o r delaying wage payments to keep workers on the job; • Reporting workers to the authorities (polic e, immigration, etc.); • Deportation, for example in the case of migrants in irregular situations; • De nying workers access to their personal documents; • Termination or exclusion from future employm ent; • Exclusion from community and social life; • Refusal of food, shelter or other necessities; • Tra nsfer to worse working conditions, and • Removal of rights or privileges. Coercion is an indicator of forced labor regardless of whether it occurs during regular hours or overtime. Subjecting workers to the coercive tactics listed below under the Coercion compliance point would be an indicator of forc ed labor, even if the tactics were used solely to force workers to work overtime. In a limited set of ci rcumstances, forced labor also can arise when workers are forced to work overtime through econom ic coercion. The Forced Labour and Overtime compliance point addresses those situations. 2) The se cond element of forced labor is that the worker has not accepted the work voluntarily. Workers mus t freely consent to accept the work and they must be free to leave the job and the workplace at all t imes. Deciding whether work is performed voluntarily often involves looking at • the vulnerability o f the worker and • external and indirect pressures that make it difficult for workers to choose not to work, for example, non-payment of wages, or denying workers access to their identity documents. Applicable legal standards include the ILO Core Conventions, C29 Forced Labour Convention, 1930 (a nd Protocol), and C105 Abolition of Forced Labour Convention, 1957, which provide the baseline stan dards for forced labor; other conventions in force in the country; applicable legislation; Collective Bar gaining Agreements and provisions in employment contracts that exceed legal requirements Othe r relevant ILO documents: C181 Private Employment Agencies Convention, 1997 and C1 Hours of Wor k (Industry) Convention, 1919

Notice

TER-FOR-1 For workers seeking to end their employment, how many days of notice are required by the facility?

45

Facility Response: 45

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

Debts

TER-FOR-2 Can workers who owe debts to the facility and/or a third party freely leave their jobs?

Yes

Facility Response: Yes

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

Withholding

TER-FOR-3

Has the facility ever withheld - or threatened to withhold - or delayed wage payments in order to ke ep workers at the facility?

No

Facility Response: No

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

Leaving

TER-FOR-4

Are workers free to terminate their employment after their notice period and/or contract expiry?

Yes

Facility Response: Yes

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

Employment Practices

Unjust Termination

TER-EMP-1

Is the facility failing to comply with legal requirements regarding worker resignation or termination r elated to: • prior notice, • workers' opportunity to defend, • valid reasons for termination, • outsta nding wages, • termination payments, • termination payments all paid on time, • compensation for unused annual leave, and/or • reinstatement/ compensation orders?

No

Facility Response: No

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

TER-EMP-2 Please specify which of the items below apply (SELECT all that apply with a "X")

Notice			
TER-EMP-2-1	Workers were not given notice prior to termination in line with applicable legal requirements		
Facility Resp	Facility Response:		
Opportunity t	o Defend		
TER-EMP-2-2	Workers did not have an opportunity to defend themselves before they were terminated based on their conduct or performance

Suspension /	Reduction Workforce		
TER-EMP-3	Does the facility comply with legal requirements before suspending workers or reducing the size of the workforce due to economic, technological, structural, operational or other similar changes?	Yes	
Facility Resp	onse: Yes		
Verification 9	Selection: Accurate		
Validation M	ethod: SLCP Onsite Verification		
TER-EMP-4	Did the facility consult with worker representatives and/or trade union representatives to develop a lternatives to suspension or reduction in workforce that was due to economic, technological, struct ural, operational or other similar changes?	Yes	
Facility Response: Yes			
Verification Selection: Accurate			
Verification Data: During the verification we verified that the facility consulted with worker representatives and/or trade union representatives to develop alternatives to suspension or reduction in workforce that was due to economic, technological, structural, operational or other similar changes.			
Validation Method: SLCP Onsite Verification			
Discrimination			
Sub-Section I	nstructions		

Overall International Labor Standard Compliance Guidance: Discrimination includes any distinction b ased on race, color, sex, religion, political opinion, national extraction or social origin, which results in unequal treatment. Other grounds of discrimination may be included in national law, such as disabilit y, HIV/AIDS status, age and sexual orientation. Discrimination may be direct or indirect and does not have to be intentional. Indirect discrimination refers to apparently neutral practices, which in fact res ult in unequal treatment of people with certain characteristics. Distinctions are permissible when th ey are necessary because of the inherent requirements of the particular job, although this exception is rare. Also, measures to protect certain categories of workers are acceptable when they are provide d for under international labor Conventions and Recommendations, such as maternity protection. Di stinctions also may be permissible under national laws designed to help groups who need special pro tection, for example, laws that offer preferential treatment to women in hiring in order to remedy t he effects of past discrimination. Applicable legal standards include the ILO Core Conventions, C100 Equal Remuneration Convention, 1951 and C111 Discrimination (Employment and Occupation) Conve ntion, 1958, which provide the baseline standards for discrimination; other conventions in force in th e country; applicable legislation; Collective Bargaining Agreements and provisions in employment c ontracts that exceed legal requirements Other relevant ILO documents: R90 Equal Remuneration R ecommendation, 1951; R111 Discrimination (Employment and Occupation) Recommendation, 1958; C1 56 Workers with Family Responsibilities Convention, 1981; R165 Workers with Family Responsibilities Recommendation, 1981

Termination

TER-DIS-1

Have race, skin color, sex (gender), religion, political opinion, national extraction, social origin, disabili ty, HIV/AIDS status, sexual orientation, pregnancy/maternity status, marital status, family responsibil ities, age or nationality/foreign migrant worker status been a factor in decisions regarding terminatio n, forced resignation, retrenchment or retirement?

No

Facility Response: No

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

Which of the following is a factor in decisions on termination, forced resignation, retrenchment or re TER-DIS-2 tirement? (SELECT all that apply with a "X")

MANAGEME	NT SYSTEMS	
Number	Question	Final Verified Response
Section Instructions		
Section Instructions		

Section Description: Management Systems related to Social and Labor practices are very facility dep	
endent. They can take many forms depending upon a facility's size, worker demographics, productio	
n process and organizational maturity. However, despite their general differences, common themes	
can be found within most social management systems. With this in mind, the questions below repre	
sent an information gathering exercise on possible Social and Labor elements the facility might have	
based on a Plan, Do Check, Act "PDCA" structure. PDCA is framework for managing processes and sys	
tems and within this tool, covers the following items: "Plan" - Polices and Procedures / Strategy an	
d Goals "Do" - Roles and Responsibility / Communication and Training "Check" - Self-Assessment "Ac	
t" - Continuous Improvement The questions listed below are simply a starting point to better under	
stand the various aspects that might make up a facility's management system. Having - or not havin	
g - certain items in place is not in and of itself a direct reflection of the overall quality of the manage	
ment system. As with other sections within this tool, answers simply offer an opportunity to further	
understand the facility's processes so that additional discussions outside of the tool with interested	
parties can take place. A note to the respondent: Many of the same social and labor topics mention	
ed in "Step 1" are also included in the questions below. "Step 1" questions primarily ask about whethe	
r certain items "exist" or certain actions "are a taking place". While "Step 2" will determine if more for	
mal management systems exist.	

Plan

Policies & Procedures

MS-PLA-1	Does the facility have written policies and/or formal procedures for social and labor practices? (SELE CT all that apply with a "X")	
MS-PLA-1-1	Written Policies	X

Facility Response: X

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

MS-PLA-1.1

Please provide a list of all relevant written policies:

Compliance with laws and workplace regulations; Prohibition of forced labour; Prohibition of child I abour; Prohibition of harassment or abuse; Comp ensation and benefits as required by law; Hours of work as limited by law; Prohibition of discrimination; Health and safety; Freedom of association and collective bargaining; Environment; Customs compliance: Security

Facility Response: Compliance with laws and workplace regulations; Prohibition of forced labour; Prohibition of child labour; Prohibition of harassment or abuse; Comp ensation and benefits as required by law; Hours of work as limited by law; Prohibition of discrimination; Health and safety; Freedom of association and collective bargaining; Environment; Customs compliance; Security

Verification Selection: Accurate

Verification Data: During the documentary review we confirmed that the facility has written company policies on topics such as recruitment and hiring, child labor, for ced labor, discrimination etc.

Validation Method: SLCP Onsite Verification

MS-PLA-1-2 Written Procedures X

Facility Response: X

Verification Selection: Accurate

Validation Method: SLCP Onsite Verification

MS-PLA-1.2

Please provide a list of all relevant written procedures:

From the documentary review and interaction wi th management team, we verified that the facili ty has established the Recruitment procedure, ag e verification process, termination process, prom otion and rotation process, disciplinary procedur e, capacity assessment process, grievance proces s, complaint process, leave management proces s, severance management process, time attenda nce management process.

Facility Response: Compliance with laws and workplace regulations; Prohibition of forced labour; Prohibition of child labour; Prohibition of harassment or abuse; Comp ensation and benefits as required by law; Hours of work as limited by law; Prohibition of discrimination; Health and safety; Freedom of association and collective bargaining; Environment; Customs compliance; Security

Section Instructions Section Instructions		
Section madu	Section Description: The purpose of the "Above and Beyond" section is to gather information on facil	
	ity practices that go above and beyond social responsibility industry standards, are not required by n	
	ational or international law, and that seek to elevate workplace well-being and community impact. Topics within this section include: • Workplace Well-being • Community Impact	
Workplace Well-Being		
Sub-Section Instructions		
July Section II	The International Labour Organization (ILO) defines "Workplace Well-being" as relating "to all aspects	
	of working life, from the quality and safety of the physical environment, to how workers feel about t	
	heir work, their working environment, the climate at work and work organization. The aim of measur es for workplace well-being is to complement OSH measures to make sure workers are safe, healthy,	
	satisfied and engaged at work." The sub-section below seeks to understand what type of above and	
a contract of the contract of	beyond practices are taking place to promote workplace well-being "within the facility walls".
